ROSWELL SALOON MEN WANT TO KEEP ON GAMBLING

The saloon men in Roswell are preparing to follow the example of the saloon men in Artesia, who have petitioned the city council to repeal the ordinance prohibiting gambling. It is not believed that the city council of Roswell will grant any such petition. Public sentiment at Roswell is very strong against such a backward step and as Mayor Stockard and most of the councilmen are pledged to see that the anti-gambling and high saloon license ordinance are kept in force, it does not seem likely that there is any danger of the saloon interests winning.

WILL LEAVE SILVER CITY AND RESIDE IN ROSWELL

William H. Cosgrove and family will leave during the present week for Southern California, where they will spend a month at the seaside resorts in the vicinity of Los Angeles, says the Silver City Independent. Upon their return to Silver City Mr. Cosgrove will dispose of his property interests here and will then leave for Roswell where they expect to reside in the future. The family have many friends in Silver City who will learn with regret of their contemplated departure.

AND THE CAT CAME BACK TO HAWKINS' HOME.

Before Mrs. H. B. Hawkins left last week for Colorado, she arranged with Mrs. P. D. Carpenter to take care of her cat—a great pet—and took "Boy" to the Carpenter ranch, about eight miles southwest of town, says the Estancia News. It seems that "Boy" thought a week's visit was long enough, and not caring to wear out his welcome, he returned home. When

Mr. Hawkins came home on Saturday evening he was surprised to find the cat there, but the cat is not at all satisfied. He roams from one room to the other looking for Mrs. Hawkins, and not finding her, stretches himself out in restless sleep, only to be awakened to again roam. The idea of the cat making the trip of eight miles has caused comment among the neighbors.

COLONY PROJECT FOR VEGAS LAND GRANT

The land project inaugurated by A. W. Thompson, formerly receiver of the United States land office at Clayton and now of Las Vegas is starting off well. It will be remembered that Mr. Thompson purchased 50,000 acres of fine land from the board of trustees of the Las Vegas land grant. This land is well situated and is ready for homesteaders. Arrangements have been made with the Santa Fe railway system, to run homesteaders' excursions to Las Vegas for the purpose of examining this land twice a month, namely, on the second and fourth Tuesdays of each month. A very low rate has been established by the road for that purpose. The first excursion from Chicago is expected to arrive in the Meadow City on the 26th instant. Sales of tracts of the property purchased by Mr. Thompson will likely begin July 1.

JUMPED FROM WAGON AND BROKE LEG

Newt Kemp had the misfortune to get a leg broken last Saturday, says the Captain News. He had a wild mule hitched to a wagon, and as some way the bronco got the advantage of him and was about to tip the wagon over, and to save himself Mr. Kemp jumped from the wagon. His foot struck a rock, turning his ankle and breaking the small bone of the lower leg. A surgeon was at once called, the limb dressed and the wounded man left to lie still and allow nature to heal the injured parts.

AMBUSHED INDIANS MURDER AMERICANS

RAILWAY CAMP AT SONORA IS ATTACKED BY TREACHEROUS YAGUIS AND CONTRACTOR SHOT.

A special dispatch from Douglas, Arizona, dated June 19, says: After a hard two days' ride from Buena Vista, a courier reached El Palme, Mexico, this morning bringing first tidings of a treacherous massacre of Americans by Yaqui Indians. On the evening of June 16 the Yaquis made a savage attack on the camp of the Camanea, Yaqui River & Pacific railway, being operated by David Slinkard, an American contractor at Sonora. Slinkard and two Mexican soldiers were instantly killed, but Mrs. Slinkard and daughter escaped from the hands of the fiends through the timely arrival of armed muckers and skimmers returning on their horses from the right of way. The onslaught was made at 5 o'clock from ambush. As soon as the Indians discovered the approach of the armed Americans, they mounted their ponies which were hidden in the Palo Alto bushes, and escaped under heavy fire. Slinkard was formerly a conductor on the Texas & Pacific running out of El Paso. He had been with the new Sonora branch of the Southern Pacific since the first railway was built out of Guaymas six months ago. This is the first massacre since the invasion of the Yaqui river by the railroad. An attempt will be made to get Slinkard's body across the line.

A bank account with the check system is one of the developments of the modern business world.

An account at the bank is a sign that you are methodical in business; it handles your business in a systematic manner, and gives you a peculiar business education not gained elsewhere.

Checks are more convenient than money. Checks answer the purpose of receipts and can be kept on file for reference.

Only those who have tried it, know the advantages of a checking account at the bank. Your balance does not need to be large, but just sufficient to meet demands. Instead of paying your bills by cash the next time, deposit the money in the bank and check against a bank account.
